1/12/70

Dear Gary,

Sorry to hear you've been ill through your letter of 1/8.

Note enclosed re Nichols, who has not responded to my letter of 1/6 but may not have been able to. It is possiblehe did not ask for this picture, that the Archives contrived that bit, but I am not inclined to think this likely.

Penabaz: CD1140:2 and 159:5 are the ones I have that are too poor.

COUP: Paul now has two copies. Forget.

We have had no answer from Councillor on why we are not getting. Do they report shooting of white man dutside black home Spencerville, Ga.? I'm interested in that.

Weather: chief difference is that your government is prepared to cope with it and I have a 500 lane to try and keep clear. If Dawnay wrote but one Penhouse article I have it.

If you did not know what Penabaz pages I want, you didn't get some of my mail. My first request was specific.

Nothing else new. Take care of yourself to avoid secondary infections. I'm still the toughest one of us!

We're both okay. And thanks for the nice things you said.

Best,
